Viamea

Dietary supplement **Viamea** was created with women and for women in mind. A carefully developed combination of ingredients refers to important aspects of female sexuality and satisfaction with intimate life. **Libido, intensity of sensations and passion** are elements that play an important role in sexual relationships. The product is based on various ingredients, including raw materials traditionally used in preparations associated with **aphrodisiacs for women.** If you are interested in the topic of female orgasm and **full satisfaction with sex**, meet Viamea. This is a proposition for women who want to consciously take care of their femininity and intimate life.

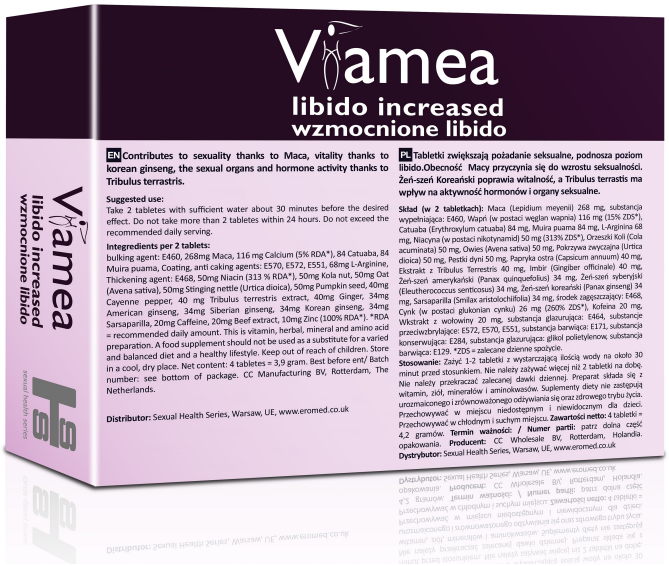

Viamea – discover your female sexuality!

Female sexuality is related to many natural processes occurring in the body. During sexual arousal it increases **blood supply to the vaginal walls** and clitoris, as well **sensitivity to stimuli** erotic. **Intense sensations** may also be associated with increasing the natural lubrication of the vagina. Libido and sexual arousal depend on many factors, such as well-being, hormonal balance, stress level and relationship with your partner. Viamea is a dietary supplement intended for adult women who are interested in sexuality, passion and conscious care for their own needs.

Female sexuality, libido and intensity of sensations

Do you feel that you lack the desire for sex and it is disturbing for you? Are you pregnant or menopausal? Sex no longer brings you so much joy and you would like everything to return to its previous harmony? Capsules **Viamea** have been developed using a variety of ingredients, including plant raw materials known from traditional herbalism. Some of them have been associated with the topic for many generations **female libido and passion.** Appropriate relaxation, well-being and a sense of security allow you to experience intimate moments more freely. These are important elements of female sexual satisfaction.

Viamea belongs to the Sexual Health Series, developed for products related to intimate life. Viamea is a dietary supplement, so you do not need a doctor's prescription to purchase it. The varied composition of ingredients is an offer for women interested in conscious supplementation and their own sexuality. **Discover your femininity, build self-confidence and enjoy closeness with your partner!**

Learn more about women's libido

Decreased sex drive and less satisfaction with sex are problems that many women encounter at various stages of life. They may be related to many factors, such as stress, fatigue, childbirth, menopause, hormonal problems or difficulties in partner relationships. Some women ignore these changes, considering them a natural part of life. However, it is worth knowing the needs of your own body and consciously taking care of your sexual health.

Are you one of the women who struggle with the problem of low satisfaction with sexual activity and reduced sex drive? **Take care of your needs and get to know your body better!** The right atmosphere, open communication with the partner, regeneration and mental comfort play an important role in female sexuality. **Viamea** is a proposition for women interested in libido, passion and daily supplementation.

Viamea – a formula created for women!

Viamea is a dietary supplement intended for adult women interested in **libido, female sexuality and satisfaction with intimate life.** The product is distinguished by its composition of nutritional and botanical ingredients. The convenient capsule form allows for use in accordance with the manufacturer's recommendations. **See for yourself how important conscious care for your femininity can be!**

Ingredients and their characteristics

Amounts refer to the recommended daily dose - 2 capsules.

Maca

270 mg

Maca is a plant with the botanical name Lepidium meyenii. The raw material used to prepare this extract is its root.

L-arginine HCl

200 mg

L-arginine is an amino acid found in proteins. The abbreviation HCl stands for hydrochloride - the form of L-arginine salt used in the product.

Terrestrial mace

200 mg

Tribulus terrestris is the botanical name of Tribulus terrestris. The extract is obtained from the fruit of the plant and standardized for the content of saponins.

Parameters stated in the description

40% saponins, including 80 mg of saponins

Sarsaparilla

100 mg

Sarsaparilla is the name of the plant material specified in the documentation as Smilax officinalis, i.e. spiny vine. An extract from the root of this plant is used.

Common nettle

50 mg

Urtica dioica is the botanical name of common nettle. The raw material is its leaves, and the extract has a specific content of polyphenols - plant compounds.

Parameters stated in the description

4% polyphenols, including 2 mg polyphenols

Oatmeal

50 mg

Avena sativa is an oat plant, also known as a cereal plant. This extract is obtained from the herb, not the grain used to produce oatmeal.

Pumpkin seeds

50 mg

The extract is obtained from pumpkin seeds marked in the documentation as Cucurbita pepo var. moschata. It is a seed material, different from the flesh of the pumpkin fruit.

Kola nut

50 mg

The raw material comes from the Cola nitida plant. Kola nut, listed in the composition under this name, is used to prepare the extract.

Niacin

50 mg

Niacin is vitamin B3, used in the form of nicotinamide. It supports proper energy metabolism and helps reduce fatigue and weariness.

Parameters stated in the description

313% RWS

American ginseng

40 mg

American ginseng is a plant called Panax quinquefolius. The extract is obtained from its root; it is a different species than Korean ginseng.

Korean ginseng

40 mg

Korean ginseng, also called Asian ginseng, is Panax ginseng. The raw material for preparing the extract is the plant root.

Siberian ginseng

40 mg

Siberian ginseng is Eleutherococcus senticosus, also known as eleutherococcus spiny. Its root extract is standardized for the content of eleutherosides.

Parameters stated in the description

0.8% eleutherosides, including 0.32 mg eleutherosides

Ginger

40 mg

Zingiber officinale is the botanical name of ginger. The raw material is its rhizome, and the extract has a specific content of gingerols - characteristic ginger compounds.

Parameters stated in the description

5% gingerols, including 2 mg gingerols

Annual peppers

40 mg

Capsicum annuum is a species of annual pepper. An extract listed in the composition as pepper extract is obtained from this plant.

Zinc

10 mg

Zinc is a mineral that supports proper fertility and reproductive functions. It was used in the form of zinc citrate; the dose given means the amount of zinc, not the weight of the entire citrate.

Parameters stated in the description

100% RWS

Anhydrous caffeine

20 mg

Caffeine is a compound from the methylxanthine group. It occurs naturally in coffee, tea and kola nuts, among others. The term "anhydrous" means the form containing no water of crystallization.

The product may contain milk, including lactose, soy, peanuts, other nuts, sesame, cereals containing gluten, eggs, crustaceans and fish.

How to use it

Accept **2 capsules once a day**, drinking plenty of water.

Two capsules constitute one recommended daily dose of Viamea and should be taken at one time. Do not take another dose on the same day. The amounts of ingredients given in the description refer to this portion - 2 capsules.

When using, do not combine Viamea with other products containing caffeine or ingredients with a similar effect. Please read the safety precautions before use.

Do not exceed the recommended daily dose.

Precautions

• The product is intended for adults.
• **Do not use in children, pregnant or breastfeeding women.**
• Do not use if you are allergic to any of the ingredients or allergens that may be present in the product.
• **Do not consume while taking medications for hypertension or diabetes.**
• **Contains caffeine: 20 mg in the recommended daily dose - 2 capsules.**
• Do not consume with other products containing caffeine or ingredients with a similar effect.
• Do not exceed the recommended daily dose.

The dietary supplement cannot be used as a replacement for a varied diet. **A balanced diet and a healthy lifestyle are the basis for the proper functioning of the body.**

Caffeine Caffeine is a naturally occurring compound found in coffee, tea and kola nuts, among others. It is known for its stimulating effect on the central nervous system. Its consumption may affect the level of arousal and alertness. People sensitive to caffeine should exercise caution, especially when consuming other products containing this ingredient.

The preparation is intended for adults. Do not use if you are allergic to any of the ingredients. Before use, carefully read the current list of ingredients and manufacturer's recommendations. Do not use in pregnant and breastfeeding women without consulting a doctor. Store in a dry and cool place, out of the reach of small children.

Storage

• Store in a tightly closed container, at room temperature **5–25°C**.
• Protect from direct heat, moisture and sunlight.
• Keep out of the reach of small children.
• Once opened, do not store longer than **6 months**, without exceeding the product's expiry date.
