Don't feel like having sex? Long break in sexual intercourse or orgasm? Bored in the bedroom? **Change it**! Let yourself be led to **orgasms like you've never had before**! Let your man take you to the very peak of female pleasure! Remember that your libido depends on much more than you think! Well-being, mood and, consequently, success in life and professional life **depend on your libido!**
I miss you **passionate intercourse?** Don't you remember when you felt like jumping into an adventure full of lust, but just thinking about it gave you shivers all over your body? Start thinking about sex as a thing **the nicest thing in the world**, not as an obligation to your partner! Take care of your passion with LibiSpray.

What is the effect of LibiSpray?

• thanks to the contraction and elasticity of the muscles located on the labia, it leads to **vaginal narrowing**
• **deepens sexual sensations**, thanks to better blood supply to the intimate areas
• **increases orgasm**, thanks to the stimulation of blood supply to the clitoris
• respectively **moisturizes**
• effectively **warms up**
• shows pleasant **tingling and stimulating**

LibiSpray is a moisturizing spray and can also be used as a lubricant. Prevents abrasions and irritations. It has a neutral PH for a woman's intimate zones.

Immediately ready, moist and tight

LibiSpray is an innovative preparation that leads to **extremely enhanced sensations.** All this thanks to the unique formula **constricting the vagina**! Your man will remember your first time, and so will you **ready for intercourse after a very short foreplay**. **LibiSpray** will make it during intercourse **Your partner will fill you better**, this will allow you to experience extraordinary closeness and give you the orgasm you've been

waiting for!

Learn more about women's libido!

Did you know that as many as 80% of women have problems due to decreased sex drive and insufficient satisfaction with sex. Many factors are responsible for this condition, such as: stress, depression, childbirth, menopause or hormonal problems. Women often ignore the first symptoms of decreased libido because they believe that such a condition is a natural result of changes in their lives. Fortunately, decreased libido can be cured very easily.

Are you one of the 80% of women who struggle with the problem of low satisfaction with sexual activity and reduced sex drive? You can change it! **As many as 94% of women confirm that** that LibiSpray their approach to **sexual life, significantly intensifying their feeling of pleasure!**

Immediate excitement and hydration

LibiSpray has a unique composition, the main advantage of which is its action **exciting and stimulating.** The product contains high-quality active ingredients (including **L-arginine and ginseng**), which **significantly improve blood circulation** and affect sexual experiences.

Orgasm guaranteed

LibiSpray is a unique preparation with action **strongly stimulating and warming**. Spray it on your labia and clitoris and you will feel an amazing tingling sensation that will make you feel **instant excitement** i **will make the clitoris more sensitive** by touch. **LibiSpray** owes its effectiveness to ingredients with energizing properties. **gives you energy** and will make it **you will feel more beautiful and confident in your sexuality**.
Using LibiSpray will allow you to experience multiple orgasms!

LibiSpray enhances erotic sensations in 3 ways

• **narrows the vagina**
• **improves circulation** in intimate areas
• nice **warms up**, causing **gentle tingling**and also improves libido
LibiSpray was created especially for women who care about immediate **vaginal narrowing effect** during intercourse and warranty **powerful orgasm**.

How does LibiSpray narrow the vagina

The vagina is made up of the labia minora and majora. On theirs **firmness and elasticity** are influenced by many factors. Over time **vaginal muscles become slack** under the influence of illnesses, childbirth or age. **LibiSpray**, thanks to its powerful ingredients **regulating blood flow in blood vessels** and **stimulating the central nervous system**, **LibiSpray makes the skin more elastic** skin of intimate areas, and **stimulates** vaginal muscles to **shrinking** labia minora and majora.
Using **LibiSpray** immediately before intercourse **will shrink the vaginal entrance for up to 30 minutes**. But that's not all! You can also use the preparation **during intercourse**, each additional portion of the preparation **will make you even hotter**.
If you want **permanent narrowing effect**, use LibiSpray **every day**! Unique plant ingredients **will improve the appearance of your intimate areas**, thanks to its strong properties **moisturizing and nourishing**. Plus **LibiSpray** effectively **prevents skin abrasions and intimate infections**and also soothes micro-injuries caused during intercourse.

Why does Libispray help a woman achieve orgasm?

Na **woman's sexual arousal** is influenced by many factors: mood, endocrine system, circulatory system and nervous system.
For maximum excitement and relaxation in the gel **LibiSpray** as many as 2 active ingredients that improve libido were used: **L-arginine** and **ginseng**.
• **How L-ARGININE works** L-arginine is a relatively exogenous amino acid, it takes part in the synthesis of key compounds for the physiology of orgasm, such as nitric oxide (of which it is a precursor) and agmatine. It is an amino acid that acts as a blood pressure regulator. Arginine also takes part in the urea cycle and is a natural precursor of ornithine, and because it improves endothelial functions and increases blood flow in blood vessels, it increases the sensitivity of a woman's intimate spheres.
• **How does GINSENG extract work?** this species of eleutherococcus, already known in Chinese medicine, contains eleutherosides that stimulate the central nervous system, increase the body's adaptive capacity, and increase mental and physical performance. They improve general well-being, have an immunostimulating effect, and increase stress tolerance. Eleutherosides intensify and activate detoxification processes and excretion of harmful metabolites. Regulates hormonal disorders and has a stimulating effect. Moreover, it helps in states of increased mental and physical effort. Helpful in circulatory disorders and decreased sexual drive.
LibiSpray is water-based, so it is safe for the skin and does not cause allergies. The spray does not leave stains and can be used with condoms and erotic accessories.

How to use

A small amount of spray **LibiSpray** apply to intimate places (labia and clitoris). Massage gently until absorbed. **Libispray** can be used immediately before intercourse or during foreplay.
The effect of LibiSpray lasts up to 30 minutes.

Precautions

Before use, perform an allergy test by applying a small amount of gel to the skin. If allergic, discontinue use. The preparation is intended for adults. Do not use if you are allergic to any of the ingredients of the preparation. Read the ingredients list carefully. Store in a dry and cool place, out of the reach of children. LibiSpray is contained in a plastic bottle with an atomizer and a cap to prevent accidental spraying. Capacity 50ml
